

# BREAKTHROUGH BLUEPRINT

My Commitment to a Healthy Disregard for the Impossible

Name Alex Muir Date 17 Dec 2013 Sponsor/Session UC Honors

What ideal future do I want to create, and for whom? **(VISION)**

I want to help create a future that is supplied by the waste of the past. I want a sustainable future for all people that is not dependent on oil + other non-renewable resources.

What challenging goals will result in a breakthrough toward this ideal future? **(STRETCH GOALS)**

My goal is to see atmospheric levels of CO<sub>2</sub> peak and begin to fall. Also, it is my goal to ensure that the majority of polymers come from prior waste, and not non-renewable resources.

What realistic goals will help me get started on my vision? **(MANAGEABLE GOALS)**

I will begin to learn the techniques and mindset of research. Also, I will graduate college with a degree focused on chemistry, + at the same time use books, professors, + other resources to increase my knowledge of the field.

With whom do I need to connect to ensure success for my vision and goals? **(RELATIONSHIPS)**

I must connect with professors knowledgeable on the topic, +

I must connect w/ peers + adults with similar passions + visions.

Specifically, I will connect with Dr. Lechman + Dr. Pinhas, + enquire about their research.

What immediate steps will I take to jump-start this breakthrough? **(ACTION PLANNING)**

I will enroll in honors organic lab, pick a book about the topic to complete, and will connect with my organic professors at UC.

DO NOT COMPLETE THIS BOX UNTIL DAY 5 AFTERNOON

<p><b>MY CORE VALUES</b></p> <p>Acceptance Friendships Honesty/Truths Religion/Spirituality Wisdom</p>	<p>Principles that guide my actions always be honest, use my faith as a way of giving back + expanding my horizons; gain as much knowledge as possible, but be humble about it; be friendly + open to new relationships, care for people</p> <hr/> <p>I want to be the kind of person who is intelligent but is personable and humble. I want to be a resource to help others when they need it.</p>
